# TECHNOLOGY

## MATERIAL MIX

Extremely comfortable wearing comfort is generated by combining different materials. Humidity is transported away from the body and the skin remains pleasantly dry.

## BREATHABLE

Moisture is quickly and effectively transported from the skin to the outer tissue by an innovative multi-channel structure. Thus sweat evaporates more quickly for highest level of freshness and therefore sustains the performance of the player.

## SUBLIMATION TECHNOLOGY

Elaborate print processing requiring highly functional machinery for consistently brilliant and filigree design and colour results.

## SHAPE-RETAINING

Our aim: Fine feel and comfort for the long-term. andro sportswear's upmarket high-tech fibers retain its shape even after a variety of washes and intensive use.

## OEKO-TEX® STANDARD 100

andro twisted terry towels are conform to the Oeko-Tex®-Standard 100, an independent testing and certification system, which underlies extensive testing for harmful substances and whose requirements go far beyond existing national regulations.

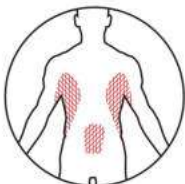

## STRETCHY

Our functional fibers are very elastic and stretchy. This feature supports the natural range of motion and allows you to quickly react to each situation without being impaired.

## TESTED FOR HARMFUL SUBSTANCES

Not only the functionality of the textiles is groundbreaking, but also their claim of environmental compatibility. Therefore andro only processes skin-friendly fabrics that are tested for harmful substances.

## BODYMAPPING

Our fabrics have been specially designed for table tennis to optimally support the athlete's natural motions.

## SAMPLE PACKAGES / SIZE SETS

A useful and free service as a good basis for the decision making in terms of choosing the right outfit for your team or even your club. Our sales consultants and partners can add some helpful input - promised.

## SUPERLIGHT

Our functional fibers are not only selected in terms of functionality, but also in terms of weight and comfort. The result are lightweight breathable fibers with a very pleasant surface feel.

## SIZES

Whether mini, senior or lady - andro provides the perfect size range for its tt-specific sportswear. Special kid's sizes and women specific styles are a matter of course. Special labeling for clear and fast attribution.

## IDEALLY PRINTABLE

The majority of andro textiles are designed with a plain back - generous print and flock area for club or sponsor representation.

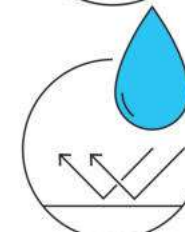

## GUARANTEED AVAILABILITY

andro provides guaranteed availability for clothing parts since many years - thus perfect and uniform equipment is guaranteed for several years. All new andro textiles with guaranteed availability are deliverable from spring 2025.

## FREELY COMBINABLE

Favored tracksuit in differing sizes for jacket and pants? No problem at andro. Get your favored combination without extra charge.

## WATER-REPELLENT

The water-repellent material offers reliable protection against moisture, wind and cold - ideal for changeable weather.

# CROSS STEP PRO

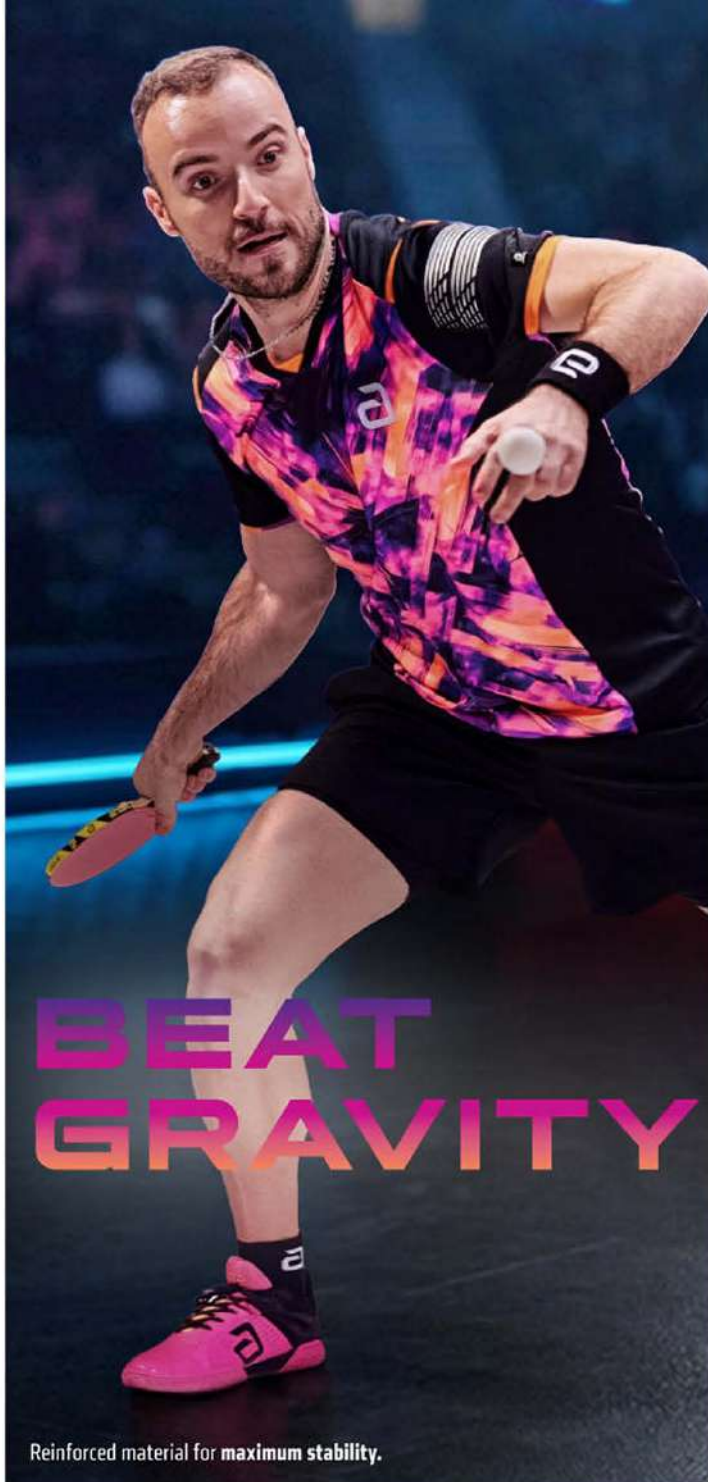

PLAY  
FASTER

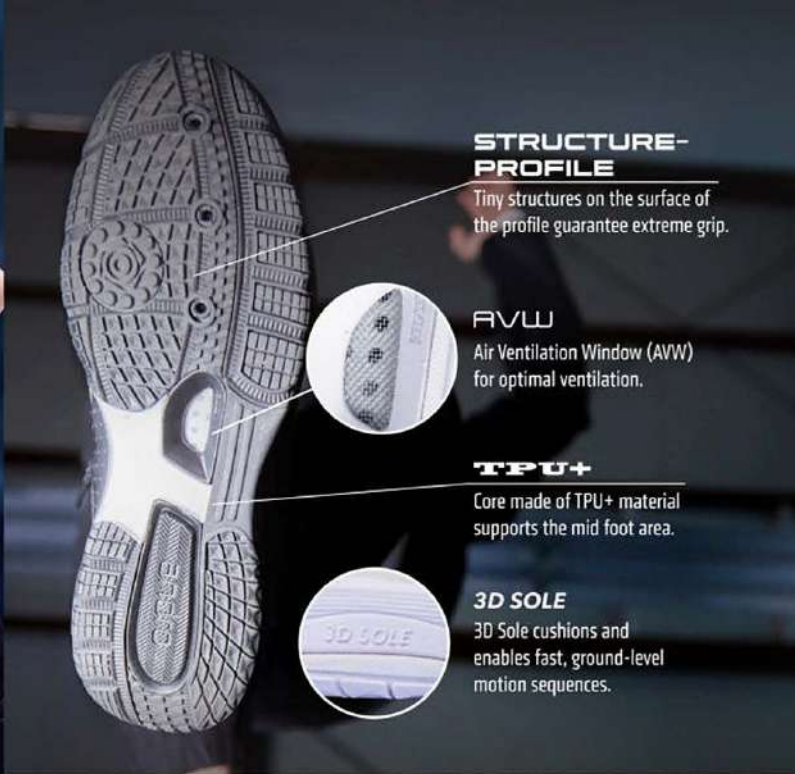

## FOOTWEAR FOR ALL TABLE TENNIS NEEDS

Table tennis is probably the fastest sport on earth. The ball crosses the net with up to 180 km/h. You hardly have time to react properly. That is why you have to be fast. You must not lose any time. You need a firm stance, comfortable shoes with good grip and non-slip socks. Then you can stop quickly and change your running direction at full speed.

Reinforced material for maximum stability.

**STRUCTURE-PROFILE**

Tiny structures on the surface of the profile guarantee extreme grip.

**AVW**

Air Ventilation Window (AVW) for optimal ventilation.

**TPU+**

Core made of TPU+ material supports the mid foot area.

**3D SOLE**

3D Sole cushions and enables fast, ground-level motion sequences.

360.021.025  
Cross Step Pro pink/black

360.021.026  
Cross Step Pro black/silver

**CROSS STEP PRO**

- Evolution of the andro Cross Step, developed in collaboration with the andro Pro Team.
- The newly shaped heel area encloses the foot and provides maximum support.
- Material reinforcement on the front outer area supports the shoe where the greatest force is exerted.
- The proven TPU+ insert on the midfoot stabilizes and prevents twisting in this area.
- Strong functionality accompanied by an elegant, sporty design.
- Anatomically shaped, removable insole.

Sizes: UK 3,5 - 12 | EUR 36 - 47

## CROSS STEP III

- Lightweight, breathable upper material with newly engineered functional panels for an even better fit and targeted stability. Optimized ventilation zones support a comfortable foot climate, even during intense matches.
- The proven TPU+ core stabilizes the midfoot area, ensuring maximum control during quick directional changes – appreciated by ambitious players and professionals alike. Stability combined with maximum freedom of movement remains the key performance feature.
- The 3D sole provides reliable cushioning in the midfoot and heel area while enabling explosive, quick steps from the forefoot.
- Anatomically shaped, removable insole.
- Functionality, dynamics, and new modern branding make the Cross Step 3 a real eye-catcher at the table.

Sizes: UK 3,5 – 12 | EUR 36 – 47

## SHUFFLE STEP III

- Lightweight, pleasantly soft upper material with newly engineered functional panels ensures an even more precise fit and high wearing comfort. Optimized ventilation zones support effective moisture management – even during longer training sessions.
- The proven construction stabilizes the foot during quick directional changes while remaining flexible enough for dynamic movement patterns.
- The Shuffle Step 3 combines secure support with natural freedom of movement – ideal for versatile playing styles.
- The grippy outsole enables controlled stops and quick starts in all directions.
- Anatomically shaped, removable insole.
- Modern branding, functional updates, and proven versatility make the Shuffle Step 3 a true all-rounder at the table.
